

# Cloud FinOps Engineer

Development Sri Lanka

BlackSwan Technologies is seeking a talented professional to work in our hyper growth startup that is pushing the boundaries on the cloud environment, building the infrastructure for scaling to hundreds and thousands of enterprise customers. We are looking for a passionate financial cloud advocate and engineer who has an understanding of both financial cost management as well as infrastructure and cloud best practices, industry trends and modern technologies.

Join our amazing 100 + team in Sri Lanka at the epicentre of our journey.

## Responsibilities:

- Work with our product and engineering teams to design and implement new cloud native services in the most cost-efficient way

- Analyze and implement cost optimization actions over Azure, GCP and AWS

- Implement and manage automated tools in order to identify cost trends and optimize cost in multi cloud environments

- Produce measurements, reports and recommended cost reduction plans for financial excellence in the public cloud

- Build competitive analysis to compare the costs between different cloud service providers

## Requirements:

- At least +2 years experience as a FinOps Engineer or Cloud Analyst

- You have superior analytical, critical thinking, and quantitative skills

- Analytical and quantitative skills with hands-on experience on cloud demand forecasting, and cost optimization

- Recommending, evaluating, and building tools with the DevOps and engineering teams when needed

- A team player with excellent communication and collaboration skills

## Who We Are:

BlackSwan Technologies is reinventing enterprise software through Agile Intelligence for the Enterprise – a fusion of data, artificial intelligence, and cloud technologies that provides unparalleled business value. Our multi-tiered enterprise offerings include the award-winning platform-as-a-service, ELEMENT, which enables organizations to build enterprise AI applications at scale for any domain quickly and at a fraction of the cost of alternatives. BlackSwan and its global partners also provide industry-proven applications that are ready-made and fully customisable for rapid ROI. These offerings are generating billions of dollars in economic value through digital transformation at renowned global brands. The private company maintains gravity centers in the UK, Europe, Israel, the US, and Sri Lanka. [www.blackswantechnologies.ai](http://www.blackswantechnologies.ai)

## Equal Opportunities:

At BlackSwan Technologies, we prioritize diversity. We celebrate difference and embed it into every aspect of our workplace, from our community to our product. BlackSwan Technologies is proud and committed to providing equal opportunity employment to all individuals

regardless of race, color, religion, sex, sexual orientation, citizenship, national origin, disability, Veteran status, or any other characteristic protected by law. In addition, BlackSwan Technologies will accommodate individuals with disabilities or a special need.
