

Senior DevOps Engineer

Development Sri Lanka

BlackSwan Technologies an award winning startup is looking for an experienced hands-on Senior DevOps Engineer to join a versatile team responsible for our Infrastructures, deployment, and CI/CD. BlackSwan Technologies is reinventing enterprise software through Agile Intelligence for the Enterprise – a fusion of data, AI, and cloud technologies that generates billions of dollars in economic value for renowned global brands.

We are a hyper growth startup that is pushing the boundaries on the cloud environment, building the infrastructure for scaling to hundreds and thousands of enterprise customers and cherry picking the best talents for the challenge. Our amazing 100 + team in Sri Lanka is at the epicentre of our journey.

Want to make a big difference? We encourage you to apply!

Responsibilities:

- Responsible for our DevOps, Cloud and Monitoring environments
- Deploy and manage applications on top of GCP, AWS and Azure
- Implement DevOps tools and cloud native services to improve delivery, availability and stability
- CI/CD pipelines and strategy. Take our CI / CD process to the next level by recommending, evaluating, and building tools when needed

Requirements:

- B.Sc. in Computer Science or Computer Engineering
- 5+ years of experience in DevOps
- Good familiarity with the Linux operating system
- Ability to write shell/Python scripts
- Good understanding of core AWS services, such as EC2, S3, VPC, SQS, SNS, etc.
- Experience with Terraform or Cloud Formation
- Experience with CI/CD pipeline tools and best practices
- Experience with at least one programming language, such as JavaScript, Python, etc.
- A team player with excellent communication and collaboration skills

Who We Are:

BlackSwan Technologies is reinventing enterprise software through Agile Intelligence for the Enterprise – a fusion of data, artificial intelligence, and cloud technologies that provides unparalleled business value. Our multi-tiered enterprise offerings include the award-winning platform-as-a-service, ELEMENT, which enables organizations to build enterprise AI applications at scale for any domain quickly and at a fraction of the cost of alternatives. BlackSwan and its global partners also provide industry-proven applications that are ready-made and fully customisable for rapid ROI. These offerings are generating billions of dollars in economic value through digital transformation at renowned global brands. The private company maintains gravity centers in the UK, Europe, Israel, the US, and Sri Lanka. www.blackswantechnologies.ai

Equal Opportunities:

At BlackSwan Technologies, we prioritize diversity. We celebrate difference and embed it into every aspect of our workplace, from our community to our product. BlackSwan Technologies is proud and committed to providing equal opportunity employment to all individuals regardless of race, color, religion, sex, sexual orientation, citizenship, national origin, disability, Veteran status, or any other characteristic protected by law. In addition, BlackSwan Technologies will accommodate individuals with disabilities or a special need.
