

Head of Delivery

Delivery Europe

Who You Are

You are a natural leader who leads by example, bleeding edge technology savvy, with a proven track record of leading highly dispersed organizations in delivery quality mission critical software, and a burning passion to disrupt the data industry.

You have excellent analytical and problem-solving skills, strategic thinking, uncompromising work ethics and business results orientation. You demonstrate strong cross-culture people management, and excellent communication and negotiation skills, and are excited to work at a startup where you will have a chance to compete head-to-head with industry giants.

You share BlackSwan's™ commitment to winning.

Who We Are

BlackSwanTechnologies.ai is a uniquely positioned data science and Intelligence insights product company. In our primary application, we offer enterprise level AI empowered Business Applications to the data intensive organisations. We are currently building the world first Cloud AI Operating System (CAIOS) and a Digital Transformation platform (ELEMENT), which, without much fuss, are already serving some of the world's™ leading financial institutions. Our advantage is existing unbelievable blend of human assets, science, engineering, and SaaS capabilities that align very well with a starved industry.

To help you succeed, we provide a supportive environment that fosters collaboration between teams and team members, where learning and professional growth is considered a key part of your success, and of ours. We offer a flexible work environment with a family-friendly work-life balance

What A Great Candidate Looks Like:
