

Google Cloud DevOps Engineer

Delivery Europe

Who You Are

BlackSwan Technologies is seeking Cloud DevOps engineer to develop and maintain infrastructure to support PaaS, IaaS and CaaS applications. The engineer provides strategic innovative and cost-effective solutions to increase efficiency, reliability and integration of BlackSwan Technologies services and operations, working in a semi-autonomous environment.

Responsibilities

- Collaborates with designers, developers and product owners for DevOps
- Applies usability procedures and principles as defined at a project or product-line levels or through customer input
- Contributes to and supports re-use through common components that are well documented and tested

Requirements

Technical skills – “Must haves”

- Strong working experience in Python
- Strong Knowledge of security principles
- Good knowledge of application networking and troubleshooting
- Understand continuous integration and continuous delivery
- Experience with Google cloud platform

Technical skills - Strong Plus

- Knowledge of containerization technologies - Docker, Kubernetes
- Knowledge of trade offs among PaaS, CaaS and IaaS cloud based solutions
- Basic knowledge of NoSQL database
- Has setup CI/CD pipelines
- Good knowledge of AWS Cloud

General skills

- Bachelors or Master degree in computer science, information systems, STEM or related
- Learn quickly in a fast-paced environment
- Excellent time-management, multi-tasking, and communication skills. Capable of juggling multiple projects and related complexities at the same time
- Good interpersonal and communication skills
- Work on a wide variety of tasks using emerging technologies
- Past experience with Financial Services will be a benefit

Who We Are

BlackSwanTechnologies.ai is a uniquely positioned data science and Intelligence insights product company. In our primary application, we offer enterprise level AI empowered Business Applications to data intensive organisations. We are currently building the world first Cloud AI Operating System (CAIOS) and a Digital Transformation platform (ELEMENT), which, without much fuss, are already serving some of the world’s leading

financial institutions. Our advantage lies inÂ an unbelievable blend of human assets, science, engineering, and SaaS capabilities that align very well with a starved industry.

To help you succeed, we provide a supportive environment that fosters collaboration between teams and team members, where learning and professional growth is considered a key part of your success, and of ours. We offer a flexible work environment with a family-friendly work-life balance.

We relentlessly solve problems. We win together.
